

Breaking it Down to Basics

When paging through FAA Practical Test Standards or Airman Certification Standards, most student pilots become overwhelmed by the huge number of skills which must be mastered. Aviation is indeed a multi-disciplinary endeavor! Avoid information overload by breaking flight down to the four most basic maneuvers. If you can execute the four tasks covered in this FAA WINGS award qualifying seminar (first individually, and then in combination), you can fly.

Directions: Forum Tent #3, Sport Aviation Expo forum campus

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
