

Canyon Pilots Association Meeting

In this seminar we will discuss safety issues that are particularly relevant to flying clubs. These will include standardized pilot training, recurrent training, and the use of standardized checklists. On the airworthiness side, we'll talk about the selection of a maintenance provider, maintenance scheduling and tracking, and owner/operator maintenance. We'll also discuss the cost vs. safety benefits of avionics upgrades.

Directions: In the Wellsboro FBO Building

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
