

# Innovation Aviation Safety and Trust - National Drone Awareness Week

Matt Scassero will share his experiences with the first ever unmanned aircraft delivery of a viable organ to a waiting patient, hurricane recovery flight support, and other research projects, with a focus on applying safety and trust to those operations. This interactive session will offer plenty of time for Q&A so you can learn the strategy behind the innovative thinking, testing, and execution of the overall mission.

**Directions:** Register in advance for this meeting: <https://forms.office.com/r/APHQRxPbNz>  
After registering, you will receive a confirmation email containing information about joining the meeting.

## A message from the National FAASTeam Manager
