123 RemoteID

Event Details

This webinar is going to break down Remote ID (RID) into three phases:

1. What is Remote ID? - We will discover where RID comes from, what RID covers, and basics about the rule.

2. Am I already Remote ID compliant? - Here we will cover how to find out if your drone is RID compliant or if you need to be compliant.

3. How do I become compliant? - We will discuss what is available to help you become compliant.

We will then end the night with an open Q&A to get your RID questions answered.

Register in advance:

https://faavideo.zoomgov.com/webinar/register/WN_d2ImiuMVTd2OPnjhmVZecw

After registering, you will receive a confirmation email containing information about joining the webinar.
