

NAFI 2025 - AOA for Flight Instructors and GA Pilots - At the PPC Education Center

Event Details

The FAA recently encouraged the installation of AOA systems in GA aircraft to reduce loss of control mishaps, the primary cause of fatal mishaps in our community, that has remained stubbornly consistent since the NTSB database was established in 1962-63. As AOA systems become commonplace in General Aviation, flight instructors can benefit from lessons learned in other flying communities. Depending on design, a properly calibrated AOA system is the only instrument in the cockpit that provides “how hard the wing is working right now” information to the pilot, including key performance parameters. This brief focuses on how pilots apply AOA, not engineering concepts; and how AOA can be the best, most intuitive “energy” instrument in the cockpit.

Wed, Jul 23, 2025 at 10:00 CDT

PPC Education Center

3000 Poberezny Rd

Oshkosh, WI

Contact: Karen Kalishek

(920) 819-4774
