

NAFI 2025 - AOA Panel Discussion - At the PPC Education Center

In December 2024, the FAA issued a special airworthiness information bulletin (SAIB) recommending that angle of attack (AOA) indicators be installed and calibrated in all general aviation aircraft. Pilots who have flown for decades without using an AOA indicator may wonder why the FAA took this recent step. Learn from a panel of FAA managers and Angle of Attack Working Group representatives how we have come to this point, the value of AOA indicators, use in university and flight training programs, and the status of collaborative work to develop and standardize AOA equipment and training within the general aviation industry.

PRESENTED DURING THE EAA AIRVENTURE FLY-IN. NO FEE FOR THE NAFI PRESENTATIONS, BUT AN ENTRANCE FEE IS REQUIRED BY EAA AIRVENTURE TO ENTER THE GROUNDS.

Event Details

Wed, Jul 23, 2025 at 11:00 CDT

PPC Education Center

3000 Poberezny Rd

Oshkosh, WI
