

ASCEND 2026 - One on One With an AME

Navigating the FAA Medical Certification process takes time, energy, and know-how that isn't common among average pilots. The Aviation Medical Examiners assembled will discuss the behind-the-scenes tools and how a non-physician can use them to their advantage when facing the seemingly daunting challenge of retaining – or regaining – your medical. They will share their experiences as pilots, explain why they each decided to become AMEs, and reveal what they wish every pilot knew when scheduling their physical exam. The presentation includes an audience Q&A period.
