

ASCEND 2026 - The Debrief - The Missing Link in Student Learning and Instructor Accountability

Event Details

Every flight ends with a debrief. But in most flight schools, that debrief is rushed, inconsistent, or skipped entirely. Without a structured debrief, mistakes get repeated, root causes go unaddressed, and students plateau. This presentation introduces a structured debrief system grounded in fighter pilot methodology and human factors that transforms every flight into a measurable learning event.
