

# 2012 National Safety Stand Down

This year's FAASafety Team Safety Stand Down focuses on Loss of Control. Loss of Control In-Flight was the dominant cause of fatal general aviation accidents over the last decade. Loss of Control refers to accidents resulting from situations in which the pilot should have either maintained or regained control of the aircraft, but did not. Join the thousands of other pilots across the country in attending this exciting briefing!

**Directions:** If flying in; advise Tower you are attending the Safety Stand Down.

## A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
