

New York Special Flight Rules Area (SFRA)

This seminar will review regulations associated with flight operations within the New York Area Special Flight Restricted Airspace (SFRA). The briefing will include a discussion on altitude restrictions, mandatory reporting points, communication frequencies and phraseology, including close proximity hazards and risks inherent with this concentrated and congested airspace.

Directions: See Map Link

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
