

Can You Talk the Talk?

Have you ever attempted to communicate with a busy radar approach control or a demanding tower frequency and weren't sure what to say? Are communication requirements different for different airspaces? Attend this informative program titled "ATC 101" and get the answers! This exclusive briefing will also feature a segment on emergency communications. Become a more confident and informed pilot by attending this informative briefing!

Directions: This seminar will be held on the first floor at the Fixed Base Operator (FBO) facility.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
