

## FAASafety Team Flight Instructor Open Forum

As an Aviation Educator you are vital and influential; you are the gateway for those entering pleasure, business, and commercial flying. It is very important that as a Certified Flight Instructor(CFI) you have a comprehensive understanding of Special Use Airspace such as Class B Airspace. At this Flight Instructor Open Forum we will discuss issues involving the Class B Airspace changes surrounding the Philadelphia International Airport (KPHL) that may affect you and your students. By becoming knowledgeable as a CFI, concerning these changes at KPHL you will enhance safety and possibly prevent Pilot Airspace Deviations.

**Directions:** Please see map link for directions, seminar will be held in Dining Room.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
