

Class B Airspace Change at KPHL

Effective July 25, 2013 the Class B Airspace surrounding KPHL changed. This very important program will provide information on the changes to the airspace and answers as to how these changes could impact certain flight operations. This seminar is a must for local area pilots, for your safety and to prevent an inadvertent airspace deviation which could result in a violation and/or mid-air collision with high performance aircraft under ATC control.

Directions: Please see map link for directions, the Sussex County Emergency Operations Center is across from the Airport Terminal.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
