

## See And Avoid: What You Don't See Can Kill You

See and Avoid: Operations at Non-Towered Airports in New Jersey. What are the risks? What are the best practices? This very important program will provide information on how to make the safe decisions when operating at non-towered airports in New Jersey. NYSB statistics show the accident trends for New Jersey. Airport environments, accident trends and instrument approach procedures (with their associated risks) are shown for selected New Jersey non-towered airports. Click on the link below and register TODAY.

**Directions:** This presentation will be held on the first floor at the Fixed Base Operator (FBO) facility. See Map Link.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
