

FAASTeam and PHL FSDO 17 presents:

Whats New?

What are the changes in store for students, pilots, and examiners relating to their certificates, flight plans, and testing? This seminar will highlight the changes to the current practical test standards (PTS) by updating them to the new airman certification standards (ACS). The changes will bring out a combined effort between FAA, industry, and aviation associations to provide for better student pilot training. In addition the changes to the student pilot certificates and application will be gone over since they went into effect 1 April 2016. Another issue to be covered will explain the changes that are being adopted in filing an ICAO flight plan in place of the current domestic flight plan now in use in the USA. To attend this exclusive event, click on the link below and register TODAY.

Directions: This presentation will be held on the second floor at the Fixed Base Operator's (FBO) facility.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
