

Helicopter Safety

An interactive seminar for Helicopter Pilots of all levels. The presentation will address Helicopter Safety issues concerning operations of all types in the local Philadelphia Area. The focus will be on helicopter strikes; i.e., wires, birds, ground objects, or other airborne objects. During the presentation we will examine recent accident data, regulatory requirements, available technology, and safety systems in use that assist in risk mitigation. In addition, the floor will be opened for the discussion related to any safety topic that is affecting local area operators.

Directions: See Map for location and directions.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants.
