

FAASTeam presents:

Time for a Drive-In Tour of Joint Base McGuire-Dix-Lakehurst

In order to promote safe flying in the Alert Area, the 514th Air Mobility Wing Safety Team sponsors fly-in and drive-in programs, which will: 1) inform general aviation pilots about the hazards of flying in busy military airspace; and 2) provide strategies for flying safely in the McGuire airspace. The program includes presentations on the types of military aircraft a GA pilot might encounter in the Alert Area, important information on flight physiology, a tour of the McGuire Radar Approach Control (RAPCON) facility, and a tour of the McGuire control tower. As an added benefit, the program provides participating pilots a static tour of aircraft on the flight line, including a C-17 Globemaster III and a KC-10A Extender. Another benefit to the program is that it provides approach controllers with the opportunity to brief GA pilots of the difficulties and hazards of not talking to RAPCON.

Directions: Due to safety and security concerns, this information will be provided to airman that register online and contact the tour coordinator. If you register for this event, you will receive an email from the Tour Coordinator. You must reply to that email with the required information. NO WALK-IN will be accepted.

Event Details

Sun, Mar 4, 2018 - 10:00 EST

**Joint Base McGuire-Dix-
Lakehurst**

3021 McGuire Boulevard
Joint Base Mdl, NJ 08641
