

ENGINE OUT! Now What?

During this 2 hour seminar with a question and answer session, we will discuss how the reciprocating engine works and the three requirements for proper operation. Flame Out can occur on take-off, climb out or cruise. What to practice to keep you sharp. Discussion of glide speed, distance to glide, descent rate and drag will be enlightening. Additional information will be provided on engine care, fuel starvation, engine fire decision tree and angle of attack. Don't miss a minute of this seminar. Come early and please register on FAASAFETY.gov.

Directions: Driving on I 95 North take exit 7A (Rte 206 South), take first driveway on right, see aerial.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
