

FAA Safety Team presents:

CFI/DPE Forum Teaching SRM

We've developed a lot of acronyms over the years such as ADM, TEM, SMS, CRM, and SRM that describe the process of detecting hazards, assessing risk and eliminating or mitigating those risks to acceptable levels. Whatever you choose to call it; a systematic process for defining what you're getting into and deciding how to deal with it is essential to safe flight operations. At this informative meeting, we're going to talk about how and when we teach Safety Risk Management to our students and we'll share some SRM education best practices along the way.

Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: Driving on I 95 North take exit 7A (Rte 206 South), take first driveway on right, building in on the right, see aerial for building. Once you enter the building, turn right and follow the hallway to the classroom, which will be on the right

Event Details

Tue, Apr 9, 2019 - 19:00 EST

**Lawrence Township Police
Department**

2207 Lawrenceville Road
Lawrence Township, NJ 08648
