

ICAO flight Planning A How To

At this seminar we will look at the FAA's mandatory ICAO flight planning, which became effective on 08/27/2019. We will look at the various ICAO components and how they can be addressed via flight planning applications such as Leidos (www.1800wxbrief.com), AOPA's Flight Planner (www.aopa.org/flightplanner). We will use these applications to create or update an aircraft profile to use ICAO, enter flight data into the application's NAV LOG, and then to file an ICAO flight plan. Please click on link below to register for this important event.

Directions: See Map Link. Seminar will be held on the first floor of the FBO.
