

DOs

- **Register** your drone
- **Fly** your drone at or below 400 feet, and in controlled airspace be sure to have an approved airspace authorization for your flight
- **Keep** your drone within your line of sight
- **Be aware** of FAA airspace restrictions
- **Respect** privacy

Whether you're a novice drone pilot or have many years of aviation experience, rules and safety tips exist to help you fly safely in the national airspace. Think of these tips as a pre-flight checklist to help you fly safely.

DON'Ts

- **Never fly** near other aircraft, especially near airports
- **Never fly** over groups of people, public events, or stadiums full of people
- **Never fly** near emergencies such as fires or hurricane recovery efforts
- **Never fly** under the influence of drugs or alcohol
