During this two hour seminar we'll discuss in detail the airspace around Philadelphia, Temporary Flight Restrictions (TFR), including the different types of TFRs, and will define the different flight limitations for each TFR.

We will further review the conditions under which the FAA may establish a flight limitation or TFR area, how to find more information regarding TFRs, and where you find out if a TFR has been issued for a specific area, and what are the consequence(s) of having a deviation into a TFR.
