

Military Airspace and General Aviation

During this 2 hour seminar we'll discuss Presidential Temporary Flight Restrictions (TFR), how to identify and explain different types of MOAs and determine best safety practices to transit the area.

Our presenter is a current F16 pilot with the Air National Guard and has been flying the Viper full-time since 2021. Mixed in with the his Air Force flight time is GA flight time involving SMEL and Sea fixed-wing aircraft along with Glider and Helicopter flight hours.

See Map for directions.
