

EAA Chapter240 Bimonthly VMC/IMC Club Meeting

The EAA VMC/ IMC Club provides a "hangar flying" experience organized around both fair weather and instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

The scenarios we will discuss at this meeting include: (IMC) "Suprisingly low ceiling" on departure, and (VMC) 'Gear Gone Awry". Both will raise questions about risk management and aeronautic decision making. Additional scenarios may be presented.

Bring your EFB, your experience, and your questions, and be ready to participate.
