

Joint Base McGuire-Dix-Lakehurst Mid-Air Collision Avoidance (MACA) Safety Tour

Event Details

To promote safe flying in the McGuire Alert Area (A-220), the 305th Air Mobility Wing Flight Safety Team sponsors this program, which will cover the following topics plus a tour over 4 hours:

- 1) inform general aviation pilots about the hazards of flying in busy military airspace; and
- 2) Provide strategies for flying safely in the McGuire airspace. The program includes presentations on the types of military aircraft a GA pilot might encounter in the Alert Area and tours of the McGuire Radar Approach Control (RAPCON) facility, the McGuire control tower, and static displays on the flight line.

Making the event special is the ability to fly to and land at McGuire Field.
