

Williamsburg Jamestown Airport Safety Seminar

Part 1 Flight Risk Assessment Tools (FRAT). Hazard identification and risk assessment are essential components of effective safetymanagement systems. FRATs are designed to assist with the risk assessment process. This presentation describes the FRAT process and its use by GA pilots.

Part 2 Preflights after maintenance. This presentation acquaints the audience with the benefits resulting from conducting an enhanced preflight examination of aircraft that are being returned to service following maintenance activity.

Don't miss this exclusive event. Click the link below and register TODAY.

Directions: Please come to the second floor of the main terminal building at the airport. Fly in aircraft parking is available on the ramp.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
