

Aviation Safety Applied to Daily Operations

An old aviation proverb states, "A superior pilot uses their superior judgement to avoid those situations which require the use of superior skill." This seminar will compare the current FAA Risk Reduction Programs to the daily risks inherent in aviation and aviation training. We will review local accidents and review which Flight Risk Assessment Tools might apply to prevent similar incidents, accidents, and occurrences.

Directions: Student Center Theater, 135 Marshall Ave. Hampton University, Hampton VA 23668

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
