

FAA Safety Team presents:

CFI/DPE Forum

Professionalism is the behavior, competence, and skill expected of professionals. For CFIs, this translates to the competencies and skills necessary to ply our trade and how we're going to act while we're doing it. At this event, we will discuss the CFI profession, what it means to be a professional, and how you can apply professionalism to improve aviation safety. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: This seminar will be held in the main airport terminal conference room. Upon entering the airport terminal, walk past the visitor information booth and the USO Welcome Center. Continue down the hall and the conference room is the last door on the right (sometimes referred to as the "Banquet" room).
