

Understanding Airworthiness Directives

Data shows that when an accident occurs involving mechanical failure, it is often traced to an AD that was missed or improperly complied with. After attending this seminar, attendees will have a better understanding of the principles of ADs and will know who is responsible for compliance, performance, and record keeping.

Directions: This seminar will be held in the Airport Terminal Building. From Route 10, take Whitepine Road to Airfield Drive. Continue on Airfield Drive to the end and the Airport Terminal Building is on your left. There is plenty of parking in front of the Airport Terminal Building.

“Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.”
