

ORF ATCT RSAT

Airport Users,

Runway incursions remain a serious concern nationally. One important component of our ongoing efforts to improve surface safety at the ORF Airport involves conducting a Runway Safety Action Team (RSAT) meeting at least once each year. In conjunction with airport management, we will be conducting a local RSAT meeting on 8/26/26. The meeting is scheduled at 10am, and will be held in Conference Room A at the Norfolk International Airport 2200 Norview Ave, Norfolk VA 23518.

The purpose of this RSAT meeting is to unite those individuals and organizations that are actively involved in air traffic operations and movement of aircraft, vehicles and equipment on the Airport Operations Area (AOA). We look for participation from all major airport interests including tenants, fixed base operators, airport operations and maintenance personnel. Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan. You are cordially invited to join us.

Your participation is important and your input is welcomed. Please RSVP to the Norfolk Staff Support specialist at christopher.lane@faa.gov. Include the name, organization, and number of those who will be attending.

If you have questions or need more information, please contact the facilities staff support specialist Christopher Lane. He can be reached at 757-460-4102 and/or christopher.lane@faa.gov.

Sincerely,

Paul Griffiths

Air Traffic Manager

Norfolk Airport ATCT (ORF)
