Don't miss this exciting and behind the scenes look at the world of Air Traffic Control (ATC). ATC specialists from the Rochester, Buffalo and Syracuse control towers have teamed up to provide provide attendees with a virtual tour of an air traffic control tower and discuss the services the facility can provide to pilots. They will address local issues and procedures unique to the airspace and answer any questions pilots or flight instructors may have. This is our opportunity to meet and interact with the professionals that work traffic in and out of KROC, KBUF and KSYR everyday! All the details at: <http://www.RochesterWings.com>.

***Directions:*** Take the NYS Thruway to Exit 46, proceed I-390N to Exit 17, turn right, proceed to 1295 Scottsville Road.

### **A message from the National FAASTeam Manager**

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
