Select #: EA2344538

FPM Guido Hassig

We are excited to be inviting you back to Rochester WINGS 2012 for an exciting program meant to familiarize you with the aspects of certification and operation for Experimental Amateur Built and Experimental Light Sport Aircraft (ESLA). We will also examine case studies of accidents to learn about the issues of inadequate transition training and instruction prior to operating, as well as maintenance and construction considerations. All the details at: <http://www.RochesterWings.com>.

**Directions:** Take the NYS Thruway to Exit 46, proceed I-390N to Exit 17, turn right, proceed to 1295 Scottsville Road.

### **A message from the National FAASafety Manager**

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
