

The FAA Safety Team presents:

Understanding The Forces of Flight Will Improve Your Flying (and Landings)!

Event Details

Thu, Jul 19, 2012 - 7:00 pm
Ithaca-Tompkins Regional Airport
72 Brown Road
Ithaca, NY 14850

Contact: DAVID ST GEORGE
(607) 257-1313
davidsaintgeorge@gmail.com

Select #: EA2345392

Lead Representative DAVID ST GEORGE

Featured speaker David St. George is a master instructor and pilot examiner in Ithaca, NY. He teaches flying every day at East Hill Flying Club. Understanding the basics of aerodynamics helps you to fly safer and more confidently! Basic aircraft control is essential to aviation safety; 67% of accidents occur during maneuvering flight! This seminar will provide hands-on demonstrations of turning stalls and the forces that control flight. Don't miss it!

Directions: Follow State Route 13 North from the City of Ithaca under 2 overpasses to the top of the hill. The next light is Warren Road, turn left then your first right (about .5 mile) is Brown Road (airport entrance). Go straight to the red brick building with the airport beacon on the roof (this is the airport administration building).

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
