

The FAA Safety Team presents:

## Spread Your Wings!

Several local pilots will share the experiences they encountered on their first few trips at various levels including the first Visual Flight Rules (VFR) flights, first longer trips in higher performance planes and first Instrument Flight Rules (IFR) experiences. We will discuss these experiences, draw lessons and formulate best practices. Bring YOUR experiences and "let's talk"! Experienced pilots are encouraged to attend and share the wisdom that only hours can convey!

**Directions:** Follow State Route 13 North from the City of Ithaca under 2 overpasses to the top of the hill. The next light is Warren Road, turn left then your first right (about .5 mile) is Brown Road (airport entrance). Go straight to the red brick building with the airport beacon on the roof (this is the airport administration building).

### A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
