Pilots now have an unprecedented amount of information available at their fingertips! Electronic navigation tools present a wealth of information in one or more integrated displays. At this exclusive briefing, featured speaker David St. George, a FAA Designated Pilot Examiner and Safety Team Lead Representative will lead a discussion on using the iPad for navigation. He'll discuss the legal aspects, traps to avoid, what you need to know about a "backup", and use of the Foreflight app, with exposure to a few of the other available products. Has your iPad ever frozen up while on approach? David's has, he will explain why and what he did to resolve the issue. An electronic flight bag can be useful for even the most technically unskilled aviator! Attend this exclusive briefing and find out how! Click on the link below to register TODAY!

Directions: Take the NYS Thruway to Exit 46, proceed I-390N to Exit 17, turn right, proceed to 1295 Scottsville Road.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
