

LIVE WEBINAR: Why Did They Do That?

This live webinar examines recent accidents involving airplanes involved in VFR operations, specifically accidents involving collisions with terrain or obstacles. Using actual accident photos and analysis, the discussion goes beyond the stated "Probable Cause" and into how the accident might have been avoided by the use of risk management tools. See the "Additional Seminar Information" for details on how to participate in this exciting FREE webinar!

Directions: No need for directions! No need to travel! Participate in this webinar from the convenience of your own computer!

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
