

Did You Know That 15 Minutes Can Save.....Your Life?

Inflight loss of control has emerged as the number one causal factor for fatal general aviation accidents. Many of these accidents could be avoided by better preflight planning. This seminar will look at some aspects of preflight planning, all of which will take you 15 minutes or less, that can dramatically reduce the risk of having a loss of control accident. Several recent accidents will be discussed and analyzed to learn from the mistakes of others. Counts for Knowledge 2 Basic WINGS credit! Click on the link below for details and to register TODAY! Also, follow us on Facebook at <https://www.facebook.com/events/624097751003377/>

Directions: Take the NYS Thruway to Exit 46, proceed I-390N to Exit 17, turn right, proceed to 1295 Scottsville Road.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
