

Monthly Hangar Flying SAFETY Meeting

Whether transitioning up to a more complex aircraft or down to an ultra-light, transition training is critical! NTSB accident data suggests that pilots with low time in type are more likely to crash. Although some transition training such as high performance, high altitude, complex airplane and tail wheel instruction and endorsement is required by regulation, the case can be made for other types and variations of aircraft as well. Bring your experiences and observations and share them in this interactive discussion. Free snacks and soft drinks provided by TRUE COURSE FLIGHT SCHOOL. Click on the link below to register today!

Directions: Meeting in True Course Flight School Hangar.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
