

The FAA Safety Team presents:

My Brain is Trying to Kill Me! * Webinar * June 25, 9:00PM EDT, 8:00PM CDT, 7:00PM MDT, 6:00PM PDT

Our lives depend on making good aeronautical decisions but our brains sometimes work to steer our decisions in an unfavorable direction. The result is all too often a bad decision that puts ourselves and our passengers at risk.

This live webinar will discuss some of the human factors, particularly our cognitive biases, involved in our decision making.

Click here for more information and to register for the webinar.

Directions: This is an online event which can be viewed on your computer or mobile device. For full functionality, including participation in online polls, please use a desktop or laptop computer, either Windows or Mac. See registration link in the "Brief Description of Event" section below.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
