

The FAA Safety Team presents:

Cortland Airfest 2015

The featured safety briefing at the Cortland Airfest this year was developed from a critical need that became obvious in over 2,500 FAA flight evaluations administered by the presenter! Many pilots lack some very basic aerodynamic knowledge necessary for safety. Misconceptions can go undetected for years while flying in the center of the maneuvering envelope. Loss of Control in flight has been recognized as a major accident causal factor. Join FAA Flight Test Examiner David St. George for this exciting safety briefing! Click on the link below for all of the details and to register TODAY!

Directions: The MH-2 Hangar at Cortland Air Fest...follow the signs!

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
