

The FAA Safety Team presents:

Monthly Hangar Flying SAFETY Meeting

Recent investigations of fatal general aviation accidents reveal that post mortem toxicology reports on deceased pilots indicated the presence of illicit, prescription, or over the counter medications in 80% of subjects tested. While NTSB and FAA have not cited drug use as a causal factor in these accidents; the magnitude of these findings poses two questions. Have the drugs found in recent investigations diminished pilots ability to safely conduct flight operations? Have the medical conditions requiring use of those drugs compromised pilots ability to fly safely? It may be impossible to say after the fact to what extent a drug compromised a pilot's capability but it's safe to say that a consultation with one's Aviation Medical Examiner (AME) is a good idea before flying while using any drug. Free snacks and soft drinks courtesy of True Course Flight School and plenty of hangar flying afterward! We'll see you there!

Directions: Meeting in TRUE COURSE FLIGHT SCHOOL hangar.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

Event Details

Wed, Sep 16, 2015 - 18:30 EDT
TRUE COURSE FLIGHT SCHOOL
53 AIRPORT DRIVE
Fulton, NY 13069
