

New York Air National Guard Unmanned Aerial Vehicle Operations at Syracuse Airport

In December 2015 the 174th ATWK initiated regular MQ-9 Reaper flights out of SYR after a thorough review of procedures with the FAA to provide a safe flying environment for all. The 174th will increase the frequency of MQ-9 UAS/RPA (Unmanned Aerial System / Remotely Piloted Aircraft) flights out of SYR and have made their Flight Safety Officer available to provide a Flight Safety and Mid-Air Collision Avoidance brief for the GA pilots as well as answer questions regarding local flying operations. Click the link below and register TODAY.

Directions: The event will be held in the SYR Terminal first floor conference room #114. Free parking for the event in the overflow parking lot.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
