

Making Flight Safety A Habit

Good systems and habits create safety in complex operations like flying. Even a simple trip in the local area can have unanticipated and complicated surprises. Are you ready or complacent? Have you prepared and practiced all the possible skills required? Flying is great fun (but accidents are not). Create the habits and procedures to keep yourself and others safe. Teaching flying for 14,000 hours has given this speaker a good background in what can go wrong and how to prevent it in aviation. Please come ready to contribute, share and learn. Guaranteed to be fun.

Directions: Located at the Cortland County-Chase Field Airport. Meeting will be held in hangar. Aircraft parking available on ramp in front of Cortland FBO. Contact Cortland FBO for additional information, 607-662-4505.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
