

## Fulton EAA Safety Meeting

The GAJSC has identified a number of fatal general aviation accidents that occurred following power plant failure. Mismanagement of light twin-engine airplanes in single-engine operations was of particular concern. The GAJSC feels that Scenario-based Training in Emergency Procedures will be effective in reducing these kinds of mishaps. We will discuss the safety benefits of Emergency Procedures Training with an emphasis on Scenario-based training and encourage pilots to adopt Scenario-based Emergency Procedures Training.

**Directions:** Oswego County Airport, County Route 176 (Whittaker Rd.) Fulton, New York. Go past the main airport entrance (heading north) to the EAA Chapter entrance. There will be a sign by the road. If flying in, you can park your aircraft on the EAA hangar ramp. [Click here to view a map.](#)

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
