

Elmira/Corning/Horseheads EAA Chapter 533 Safety Seminar

What makes an aircraft airworthy? What maintenance are owners allowed to perform on their aircraft? What logbook entries are required before the aircraft is legal for flight again? Bill Abbott, the Rochester FAA Safety Team Program Manager and Aviation Safety Inspector will discuss "Aircraft Airworthiness and Owner-performed Maintenance" at the February EAA Chapter 533 meeting. Be sure to join us for Bill's interesting and informative discussion. The meeting is open to anyone interested in aviation.

Directions: Take Sing Sing Road to Aviation Drive to the EAA Chapter 533 Hangar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
