

## Fulton EAA Topic of the Month Safety Meeting

In this presentation, we will address recommendations from the General Aviation Joint Steering Committee – a government / industry group that analyzes GA accidents and incidents. Recently the Committee studied system and component failure accidents and they determined that a significant number of fatal accidents result from unsuccessful forced landing attempts. The Committee feels that improved pilot knowledge of and proficiency in flying at best glide speed and configuration will increase the chances of a successful forced landing.

**Directions:** Oswego County Airport, County Route 176 (Whittaker Rd.) Fulton, New York. Go past the main airport entrance (heading north) to the EAA Chapter entrance. There will be a sign by the road. If flying in, you can park your aircraft on the EAA hangar ramp. [Click here to view a map.](#)

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
