

FAASTeam presents:

Autumn Scenery Safety (Earlier Session)

Autumn offers unique opportunities to view some spectacular autumn scenery or just some general sightseeing. We can be safer if we are aware of some additional hazards and take steps to mitigate the risks. This live webinar will address some of those hazards and provide practical risk mitigation strategies. Long-time professional pilot and flight instructor Gene Benson will provide a lively presentation with a Q&A session at the end. Like all events in the series, attendance is valid toward the Avemco Safety Rewards Program.

Directions: This live webinar is part of the Avemco Insurance Fall 2020 Webinar Series. In addition to Wings credit, Attendees may also be eligible for the Avemco Safety Rewards Program discount.

The webinar will last approximately one hour. The webinar is also offered at a later time. More information and webinar registration links can be found by clicking here. Attendance is limited so register early. Registration on FAASafety.gov is not necessary.
