

Birds Bullets and Bears

This lively webinar will feature a series of photos, culled from actual Avemco claim files, along with claim data specific to Avemco records. The pictures and data will focus on weather and in-motion awareness. There will also be a review of some odd-ball pilot incidents, that hopefully provide education for encounters that occur not only in the air but on the ground.

Host: Gene Benson. Presenter: Bryon Schwartz, Avemco Senior Aviation Underwriter

Directions: This is a live webinar that will include live Q&A. It can be viewed on most desktop, laptop, and mobile devices. For the best experience, it is recommended to use a desktop or laptop computer.

Registration on FAASafety.gov is not required for this event. Click here to register for the event on a third-party site.
