

Rochester FAASTeam presents:

## **Simple Changes For Safer Flying!**

Simple changes to your ordinary procedures can yield immediate safety improvement.

FAA Safety Seminar, a great breakfast, and aviation fun for the whole family.

A disproportionate number of fatal accidents take place during take-off and landing. Only 6% of piloting time represents 71% of all fatal accidents! Simple changes in preparation and procedures can significantly reduce your chance of an accident in these areas. A pilot should tune up their vigilance when in this phase of flight and always leave a performance margin and an escape route to assure safety.

David St. George is a 13X Master Flight Instructor and has been an FAA DPE for over 25 years.

Online resources for this show and any recent changes are at this website

**Directions:** Cortland Air Fest at Cortland Airport

## Event Details

**Sat, Jul 23, 2022 - 10:00 EDT**
