

Elmira/Corning Regional Airport Runway Safety Action Team Meeting

Runway Safety Action Teams (RSAT) meeting brings local airport users together at least once a year to identify risks to surface safety at that airport and develop plans to mitigate or eliminate those risks. RSATs provide the foundation of the Runway Safety Program at individual airports. The RSAT meetings are the primary forum for pinpointing and addressing airport-specific risk in the surface environment. The product of a RSAT meeting is a Runway Safety Action Plan in which the stakeholders document and agree to pursue specific actions intended to improve surface safety.

The RSAT meeting will be held in the Elmira/Corning Regional Airport's Terminal conference room, located in the hallway off of the rental car area/ baggage terminal.
